Audience Behaviour & Engagement Report

Audience Intelligence Team | Research & Insights

Reporting Period: H2 2024 – Q1 2025 | CONFIDENTIAL

Executive Overview

This report provides a comprehensive analysis of StreamVault's viewer behaviour patterns across the six-month period from July 2024 to April 2025. Key findings include a significant shift toward SmartTV viewing, strong generational differences in genre preference, and the emergence of Bangalore and London as the platform's highest-engagement cities globally. The 25-34 age cohort remains the most valuable subscriber segment by both volume and monetisation.

55+	7%	1.8	Drama, Romance	22%

Regional Engagement Analysis

Regional analysis reveals significant variance in engagement scores across StreamVault's 15 key markets. Bangalore leads all cities globally with an average engagement score of 91.2, driven primarily by the 25-34 tech-professional demographic and exceptionally strong Stellar Run viewership (8,000-20,000 views per month). London ranks second, boosted by strong Drama and Thriller performance. Mumbai shows the highest absolute viewer count in India, though its engagement score trails Bangalore significantly.
